For Your Information:

- Learning, care, and safety are our primary priorities at Oldfield. As part of that, we will be having our first Fire Drill of the school year this week. I will be sure to inform school staff to prepare any students with auditory sensitivities or anxiety. A fire drill, as I am sure you recall from your own school days, is an opportunity to practice quick evacuation procedures, observe and make efforts to improve and/or celebrate our responsiveness.
- Please be mindful of the limited space in our parking lot and the room buses need to safely enter and exit. To keep our students safe, please consider:
 - Send students to school on assigned bussing to avoid unnecessary traffic
 - When there is a school bus in the parking lot, no other cars should enter.
 - When walking or sending students to the door, come up either outside edges of the driveway. Do not walk between buses and or directly in front of buses, as drivers may not see you.
